

FAQ

How quickly do spirits contact you?

For some this happens before the spirit even arrives at their home. For others the contact can be anywhere between a few days to a few months. It truly depends on the type of spirit or entity and how social an entity they are. Sometimes spirits will not contact you until they are needed, whereas others are more companion-like and are friendly & active.

Your effort & energy put into the relationship is what you will derive. It is not advisable for you to rely on others to be a go-between for you & your spirit(s). Channelers, psychics, and readers are valuable assets to the paranormal community for many reasons; however they should never be a substitute for you creating interaction & contact between you & your spirit(s). If you do not take responsibility to strengthen & grow your paranormal energy for contact & interaction with spirits you will never obtain the ability to know what is truly going on with your spirits and you will be vulnerable to rely solely on the words of others.

If you are going to embark on the adventure of Spirit Keeping you should be ready, willing, and able to put forth the effort of bonding & initiating contact with spirits or you should not be a Spirit Keeper.
