Huestrology - Your Birth Color

What a difference a day makes...

Huestrology is a word, and methodology, created by Ash & Magnolia West of Creepy Hollows.

It tells you your birth color, and the personality, and behavioral, associations related to that color. It is a snapshot reading of you, and the energy associated with your birthday.

In Huestrology even one day makes a difference between the inherited traits, behaviors, and personality.

Huestrology

Please use the Huestrology category to navigate through each day's color, color name, and meaning.

Unique solution ID: #2292
